

RENCONTRES ÉGÉENNES INTERNATIONALES/ INTERNATIONAL AEGEAN CONFERENCES

16 October 2015

Dear Colleague,

You have submitted a proposal for a paper for the 16th International Aegean Conference /16e Rencontre égéenne internationale, to be held in Ioannina from 18 to 21 May 2016 on the topic “ΕΣΠΕΡΟΣ / HESPEROS. The Aegean Seen from the West”, and we thank you for your interest in the conference. The Organizing Committee has met in Ioannina on October 7 and has decided to accept 53 oral presentations that are connected with the theme of the conference, as defined in the first circular. We regret very much to have to impose such a limitation of the number of papers, but this is the only way to accommodate the contributions within the four full days of the conference, and to make at least some discussion possible.

The topic that you have offered has been considered to be in connection with the theme of the conference and has been accepted as an oral presentation, the practical conditions of which will be specified on the Web site of the conference in the next months. The Web page will provide also useful information on the organization of the conference and on your stay and accommodation in Ioannina as soon as it is available. It will regularly be updated.

Your paper will be published in the proceedings of the Rencontre, to appear in the series *Aegaeum. Annales liégeoises et PASpiennes d'archéologie égéenne*. Instructions for publication will be given on the HESPEROS Web site in due time as well.

We thank you once again for your interest in HESPEROS and for your valuable contribution and we stay at your disposal for additional questions you might have.

We look forward very much to welcoming you in Ioannina in May 2016.

The Organizing Committee
